

Our Core Offerings to Non Profit Organisations

Volunteer **CONNECT**

Let us help you find volunteers for your programmes. Send us your requirements and we will inform you once we have found an appropriate fit. Requirements should include details about the project, work location, duration and skill sets. Go to our website to register your organisation. **Free service**

Social Responsibility **CONNECT**

If you would like us to refer your organisation to Individuals and Companies interested in social responsibility [including CSR] activities which could include gifts, donations and volunteering, please do write in to us with specific information about your organisation and the areas you need the most help.

Direct Assistance Services

Accounting and Information Management

We manage your end to end accounting requirements, including monthly closing of accounts. Preparation of Income and Expenditure and Receipts and Payments accounts.

Board Advisory Services

We advise the Board and Key Management on strategies that will be most effective to operationalize the core objects of the organisation. Our services include continuous support or periodic/ decision based support.

Website Creation

We help create an online presence for your organisation. This involves the creation of a website which will display information about your organisation and the activities that have been undertaken

Management Information Systems

We prepare monthly reports for the Board and management to ensure that they are on top of all activities and operations for the period. This could include Budget vs Expenditure for the month, Revenue from direct sales matched with cost etc.

Workshop and Training Services

We conduct workshops & trainings on matters critical to the organisation. Workshops are facilitative sessions to evaluate strategies and operational tactics. We have a range of management training courses.

Social Media Management

We help you develop and manage your online presence. Manage all aspects of your social media through a common framework and voice and effectively leverage the power of your social media platforms.
